1 February 2008

ACCOMMODATION services company for the mining industry **Mac Services** is reaping the rewards of the booming resources sector, saying it's on track to beat its forecast prospectus profit.

The company, which listed last April, yesterday declared a 65.5 per cent increase in net profit to \$9.03 million for the six months which ended on December 31.

Company secretary Stephen Law said Mac was on track to beat its initial public offering forecast of a full-year profit of \$16.2 million.
